Contents of Volume 18

Number 1, February 1988

Platelet and vessel associated prostacyclin and thromboxane A_2/prostaglandin endoperoxide receptors
K. Jaschonek and C. P. Muller 1

Localization of collagen mRNA in normal and scleroderma skin by *in-situ* hybridization
K. Scharffetter, B. Lankat-Buttgereit and T. Krieg 9

Serum type III procollagen peptide levels in coronary artery disease (a marker of atherosclerosis)
J. Bonnet, P. E. Garderes, M. Aumailley, C. Moreau, G. Gouverneur, D. Benchimol, R. Crockett, J. Larrue and H. Bricaud 18

Urinary excretion of bile acids during acute administration in man
G. Salvioli, R. Lugli, J. M. Pradelli, Anna Frignani and Velia Boccalletti 22

Effects of sodium valproate on haem biosynthesis in man: implications for seizure management in the porphyric patient
G. M. McGuire, G. J. A. Macphee, G. G. Thompson, M. R. Moore and M. J. Brodie 29

Effects of prolonged administration of two new α-glucosidase inhibitors on blood glucose control, insulin requirements and breath hydrogen excretion in patients with insulin-dependent diabetes mellitus
G. Dimitriadis, E. Hatziagelaki, S. Ladas, Athena Linos, Ingrid Hillebrand and S. Raptis 33

Prevalence of hypercalcaemia in a health survey: a 14-year follow-up study of serum calcium values
M. Palmér, S. Jakobsson, G. Åkerström and S. Ljunghall 39

Red blood cell sodium and potassium fluxes in psoriatic patients
A. Semplicini, M. G. Mozzato, E. Rigon, O. Parolin, B. Samà, S. Padovan, P. Degan, A. Peserico and A. C. Pessina 47

Effect of calcium intake on serum levels of 25-hydroxyvitamin D3
T. Berlin and I. Björkhem 52

Inhibition of secondary bile acid formation in the large intestine by lactulose in healthy subjects of two different age groups
F. M. Nagengast, M. P. C. Hectors, W. A. M. Buys and J. H. M. van Tongeren 56

Skeletal muscle and whole body protein turnover in thyroid disease
W. L. Morrison, J. N. A. Gibson, R. T. Jung and M. J. Rennie 62

Hyperlactataemia, hyperkalaemia and heart block in acute iron overload: the fatal role of the hepatic iron-incorporation rate in rats on ferric citrate infusions
A. Rosenmund, B. Brand and P. Werner Straub 69

Determinants of kallikrein proteolysis of apolipoprotein B-100 in human blood plasma
A. Gustafson, J. P. Kane and R. J. Havel 75

Role of the adrenal cortex in the natriuresis associated with vasopressin infusion
P. J. T. Drew, J. P. Monson, J. M. P. Holly, F. J. Goodwin and T. D. M. Williams 81

Tamm Horsfall glycoprotein interferes with bacterial adherence to human kidney cells
J. Dulawa, K. Jann, M. Thomsen, M. Rambausek and E. Ritz 87

Studies on calcium exchange in platelets in human diabetes
C.-H. Bergh, Å. Hjalmarson, G. Holm, Eva Angwald and B. Jacobsson 92

Stimulation of pancreatic secretion in man by a protease inhibitor (camostate)
G. Adler, A. Müllenhoff, I. Koop, T. Bozkurt, B. Göke, C. Beglinger and R. Arnold 98

Number 2, April 1988

Review: Molecular and clinical aspects of connective tissue
Th. Krieg, R. Hein, A. Hatamochi and M. Aumailley 105

Effect of the stable prostacyclin analogue iloprost on water and electrolyte transfer of the rat ileum and colon *in vivo*
K. J. Goerg, R. Wanitschke, U. Becker and K.-H. Meyer zum Büschenfelde 124

The effect of long-term fibre and starch intake by man on faecal bile acid excretion
Y. Ghoos, P. Rutgeerts, G. Vantrappen, M. Hiele and P. Schurmans 128

Campylobacter pylori: prospective analysis of clinical and histological factors associated with colonization of the upper gastrointestinal tract
G. Börsch, G. Schmidt, M.Wegener, M. Sandmann, R. Adamek, F. Leverkus and E. Reitemeyer 133

Gastrointestinal permeability to polyethylene glycol: an evaluation of urinary recovery of an oral load of polyethylene glycol as a parameter of intestinal permeability in man
E. K. Philipsen, W. Batsberg and A. B. Christensen 139

Peptide hormones in patients with acute leukaemia
K.-H. Pflüger, H. Köppler, G. Jaques and K. Havemann 146

Bile acid metabolism in heterozygous familial hypercholesterolaemia: a study comparing affected and unaffected siblings of four kindreds
B. Angelin 153

Decrease of plasma potassium due to inhalation of beta-2-agonists: absence of an additional effect of intravenous theophylline
M. Deenstra, J. R. E. Haalboom and A. Struyvenberg 162

Altered bile acid profiles in duodenal bile and urine in diabetic subjects
E. Andersén, G. Karlaganis and J. Sjövall 166

Cholecystokinin is a physiological hormonal mediator of fat-induced inhibition of gastric emptying in man
J. H. Kleibeuker, H. Beekhuis, J. B. M. J. Jansen, D. A. Piers and C. B. H. W. Lamers 173

Alternative routes for angiotensin-I conversion: kinetics of the renin–angiotensin system in mouse plasma
J. Jacobsen, K. Poulsen and A. Hunding 178

Human hepatocytes exhibit receptors for α_2-macroglobulin and pregnancy zone protein–proteinase complexes
C. Munck Petersen, B. S. Christiansen, P. H. Jensen, S. K. Moestrup, J. Gliemann, L. Sottrup-Jensen and J. Ingerslev 184

Plasma BGP an indicator of spontaneous bone loss and of the effect of oestrogen treatment in postmenopausal women
Julia S. Johansen, B. J. Riis, P. D. Delmas and C. Christiansen 191

Changes in the lectin-binding pattern of PNA-agglutinin and UEA_1 during the DMH-induced carcinogenesis in the normal appearing colonic mucosa of the rat
T. Balzer, F. Sandforth, S. Gutschmidt and E.-O. Riecken 196

Disturbed relationship between urinary prostaglandin E_2 excretion, plasma arginine vasopressin and renal water excretion after oral water loading in early hepatic cirrhosis
B. Jespersen, E. B. Pedersen, M. Madsen, P. Christensen, H. Eiskjær, P. P. Leyssac and S. S. Sørensen 202

Low production of procollagen III by skin fibroblasts from patients with Ehlers–Danlos syndrome type IV is not caused by decreased levels of procollagen III mRNA
Monique Aumailley, E. Pöschl, G. R. Martin, Y. Yamada and P. K. Müller 207

Density and agonist-promoted high and low affinity states of the β-adrenoceptor on human B- and T-cells
M. Griese, U. Körholz, D. Körholz, K. Seeger, V. Wahn and D. Reinhardt 213

Number 3, June 1988

Molecular genetics of coronary heart disease
D. J. Galton 219

Insulin stimulates the uptake of chylomicron remnants in cultured rat hepatocytes
E. Jensen, C.-H. Florén and Å. Nilsson 226

Cytokine production in patients with newly diagnosed insulin-dependent (type I) diabetes mellitus
A. Luger, G. Schernthaner, Agatha Urbanski and T. A. Luger 233

Tamm Horsfall glycoprotein in diabetes mellitus: abnormal chemical composition and colloid stability
M. Rambausek, J. Dulawa, K. Jann and E. Ritz 237

Measures of fat distribution as determinants of serum lipids in healthy volunteers consuming a uniform standardized diet
J. C. Seidell, R. P. Mensink and Martijn B. Katan 243

Glycogen and lactate synthetic pathways in human skeletal muscle in relation to obesity, weight reduction and physical training
K. Allenberg, Marianne Nilsson, Kerstin Landin and Folke Lindgårde 250

Cholestyramine treatment of type IIa hypercholesterolaemia normalizes platelet reactivity against prostacyclin
Petra Löbel, Elisabeth Steinhagen-Thiessen and Karsten Schrör 256

Interindividual variability in biliary excretion of ceftriaxone: effects on biliary lipid metabolism and on intestinal microflora
Annie Arvidsson, Barbro Leijd, C. E. Nord and B. Angelin 261

Feedback regulation of stimulated pancreatic enzyme secretion during intraduodenal perfusion of trypsin in man
J. Długosz, U. R. Fölsch, A. Czajkowski and A. Gabryelewicz 267

Renal lithium handling during water loading and subsequent d-DAVP-induced anti-diuresis
W. H. Boer, H. A. Koomans and E. J. Dorhout Mees 273

Lithium clearance during variations in sodium intake in man: effects of sodium restriction and amiloride
W. H. Boer, H. A. Koomans, E. J. Dorhout Mees, C. A. Gaillard and A. J. Rabelink 279

Enhanced calcitonin secretion in the rat after parathyroidectomy and during chronic calcium deprivation
F. Raue, Ute Wieland, Christine Weiler and R. Ziegler 284

Inhibition of human neutrophil migration by supernatants from Hodgkin's disease-derived cell lines
E. Schell-Frederick, H. Radtke, H. Sommer, I. Helbing, H. Burrichter, M. Schaadt and V. Diehl 290

Platelet serotonin content and plasma tryptophan in peri- and postmenopausal women: variations with plasma oestrogen levels and depressive symptoms
P. Guicheney, D. Léger, J. Barrat, R. Trévoux, B. de Lignières, P. Roques, J. P. Garnier, P. Boyer, J. Grenier, C. Dreux and P. Meyer 297

Skin microvascular circulation in the sympathetic dystrophies evaluated by videophotometric capillaroscopy and laser Doppler fluxmetry
L. Rosén, J. Östergren, B. Fagrell and E. Stranden 305

Role of alpha-adrenoceptor subytpes mediating sympathetic vasoconstriction in human digits
J. D. Coffman and R. A. Cohen 309

Value of autopsy in internal medicine: a 1-year prospective study of hospital deaths
M. Boers, A. C. Nieuwenhuyzen Kruseman, F. Eulderink, J. Hermans and J. Thompson 314

Number 4, August 1988

Review: Clinical applications of heparin-binding growth factors
R. R. Lobb 321

Abnormal Na^+-K^+ ATPase kinetics in a subset of essential hypertensive patients
A. de la Sierra, A. Coca, M. T. Aguilera and A. Urbano 337

Alpha- and gamma-interferon (IFNα, IFNγ) but not interleukin-1 (IL-1) modulate synthesis and secretion of β_2-microglobulin by hepatocytes
G. Ramadori, A. Mitsch, H. Rieder and K.-H. Meyer zum Büschenfelde 343

Collagen type IV and procollagen type III during granulation tissue formation: a serological, biochemical, immunohistochemical and morphometrical study on the viscose cellulose sponge rat model
K. Hørslev-Petersen, L. R. Pedersen, K. D. Bentsen, D. Brocks, C. Garbarsch, K. Y. Kim, E. G. Hahn, D. Schuppan and I. Lorenzen 352

Action of somatostatin analogue (SMS 201-995) on the growth-promoting effect resulting from sustained achlorhydria in rat gastric mucosa, with special reference to endocrine cell behaviour
G. Cadiot, Therese Lehy and S. Bonfils 360

Effects of posture and saline infusion on atrial natriuretic peptide and haemodynamics in patients with Bartter's syndrome and healthy controls
C. J. Doorenbos, M. R. Daha, F. R. Bühler and P. van Brummelen 369

Increased sensitivity to pressor hormones in central diabetes insipidus
T. D. M. Williams, J. F. Laycock, S. L. Lightman and R. L. Guy 375

Granulocyte activation during haemodialysis in the absence of complement activation: inhibition by calcium channel blockers
Marianne Haag-Weber, P. Schollmeyer and W. H. Hörl 380

Occurrence of cholesterol monohydrate crystals in gallbladder and hepatic bile in man: influence of bile acid treatment
S. Sahlin, J. Ahlberg, B. Angelin, S. Ewerth, K. Nilsell, E. Reihnér and K. Einarsson 386

Intestinal development in the suckling rat: effect of insulin on the maturation of villus and crypt cell functions
J.-P. Buts, Nadine de Keyser and C. Dive 391

Intraplatelet serotonin in patients with diabetes mellitus and peripheral vascular disease
M. A. Barradas, D. S. Gill, V. A. Fonseca, D. P. Mikhailidis and P. Dandona 399

The TSH, T_4, T_3 and prolactin responses to consecutive infusions of a potent and stabilized thyrotrophin releasing hormone analogue, RX77368, in man
D. J. A. Eckland and S. L. Lightman 405

Decreased prostacyclin sensitivity of platelets in patients with Behçet's syndrome
A. P. Wilson, J. Efthimiou and D. J. Betteridge 410

Effect of exercise on plasma atrial natriuretic factor and cardiac function in men and women
J. E. Donckier, P. M. de Coster, M. Buysschaert, P. Levecque, F. M. Cauwe, C. M. Brichant, A. C. Berbinschi and J.-M. Ketelslegers 415

Ethanol decreases plasma sulphydryls in man: effect of disulfiram
J.-M. Burgunder, J. Nelles and B. H. Lauterburg 420

Role of atrial natriuretic factor, cyclic GMP and the renin–aldosterone system in acute volume regulation of healthy human subjects
A. L. Gerbes, R. M. Arendt, R. Gerzer, W. Schnizer, D. Jüngst, G. Paumgartner and H. Wernze 425

Number 5, October 1988

Obituary: Albert E. Renold 431

Review: The molecular and cellular pathology of Chronic Granulomatous Disease
A. W. Segal 433

Review: The gap junction: a channel for multiple functions?
R. Bruzzone and P. Meda 444

Transcutaneous oxygen pressure measurements in type I diabetic patients for early detection of functional diabetic microangiopathy
H.-W. M. Breuer, J. Breuer and M. Berger 454

Characterization of a heparin-like activity released in dogs during deep hypothermia
B. Cornillon, M. Mazzorana, G. Dureau and J. Belleville 460

A monoclonal Ro-antibody and the serum of a Ro-positive patient with subacute cutaneous lupus erythematosus (SCLE) react with basal layers of human epidermis
W. J. Mayet, M. Bachmann, K. Pfeifer, H. C. Schröder, W. E. G. Müller, W. Gudat, G. W. Korting and K. H. Meyer zum Büschenfelde 465

Comparison of the effects of two different doses of alcohol on serum lipoproteins, HDL-subfractions and apolipoproteins A-I and A-II: a controlled study
M. Välimäki, Marja-Riitta Taskinen, R. Ylikahri, R. Roine, T. Kuusi and E. A. Nikkilä 472

Platelet α_2- and leucocyte β_2-adrenoceptors in phaeochromocytoma: effect of tumour removal
P. Valet, C. Damase-Michel, B. Chamontin, D. Durand, F. Chollet and J. L. Montastruc 481

Monocytic production and plasma bioactivities of interleukin-1 and tumour necrosis factor in human cancer
L. L. Moldawer, C. Drott and K. Lundholm 486

Decreased insulin sensitivity and muscle enzyme activity in elderly subjects
Y. T. Kruszynska, G. Petranyi and K. G. M. M. Alberti 493

Oxyntomodulin: a potential hormone from the distal gut. Pharmacokinetics and effects on gastric acid and insulin secretion in man
B. T. G. Schjoldager, F. G. A. Baldissera, P. E. Mortensen, J. J. Holst and J. Christiansen 499

The effect of ageing on human platelet sensitivity to serotonin
G. Gleerup and K. Winther 504

Methodological limitations of the use of intrinsic hepatic clearance of ICG as a measure of liver cell function
S. Keiding and C. Skak 507

Asparaginase-induced derangements of glutamine metabolism: the pathogenic basis for some drug-related side-effects
G. Ollenschläger, E. Roth, W. Linkesch, S. Jansen, A. Simmel and B. Mödder 512

Effect of cholestyramine on plasma cholecystokinin and pancreatic polypeptide levels, and exocrine pancreatic secretion
I. Koop, A. Fellgiebel, H. Koop, A. Schafmayer and R. Arnold 517

Binding sites for atrial natriuretic peptide on platelets in patients with congestive cardiomyopathy
T. M. Strom, J. Weil, F. Braun, K. Stangl, A. Timnik, J. M. Heim and R. Gerzer 524

Rates of bone loss in normal women: evidence of accelerated trabecular bone loss after the menopause
L. Nilas and C. Christiansen 529

Ammonia and glutamine metabolism in human liver slices: new aspects on the pathogenesis of hyperammonaemia in chronic liver disease
S. Kaiser, W. Gerok and D. Häussinger 535

Synthesis and secretion of α_2-macroglobulin by human hepatocytes in culture
C. Munck Petersen, B. S. Christiansen, L. Heickendorff and J. Ingerslev 543

Number 6, December 1988

Review: Prostaglandin E_1 and arterial occlusive disease: pharmacological considerations
Th. Simmet and B. A. Peskar 549

Copper distribution among serum proteins in paediatric liver disorders and malignancies
L. Barrow and M. S. Tanner 555

Low dose heparin versus low molecular weight heparin (Kabi 2165, Fragmin®) in the prophylaxis of thromboembolic complications of abdominal oncological surgery
J.-P. Fricker, Y. Vergnes, R. Schach, A. Heitz, M. Eber, L. Grunebaum, M.-L. Wiesel, A. Kher, P. Barbier and J.-P. Cazenave 561

Atrial natriuretic factor enhances vasopressin-induced bradycardia in normotensive (WKY) but not in spontaneously hypertensive (SHR) rats
M. Łapiński, K. Stepniakowski, A. Januszewicz, B. Noszczyk and Ewa Szczepańska-Sadowska 568

Adipocyte insulin receptor binding and lipogenesis at term in normal pregnancy
O. Andersen and C. Kühl 575

Polymorphism at the 5′ end flanking region of the insulin gene is associated with reduced insulin secretion in healthy individuals
S. Cocozza, G. Riccardi, Antonella Monticelli, Brunella Capaldo, S. Genovese, V. Krogh, E. Celentano, E. Farinaro, S. Varrone and V. E. Avvedimento 582

α_2-Antagonist compounds and lipid mobilization: evidence for a lipid mobilizing effect of oral yohimbine in healthy male volunteers
J. Galitzky, M. Taouis, M. Berlan, D. Rivière, M. Garrigues and M. Lafontan 587

Plasminogen activators and plasminogen activator inhibitor in malignant and non-malignant ascitic fluid
K. Huber, J. Wojta, J. C. Kirchheimer, D. Ermler and B. R. Binder 595

Positive inotropic effects in isolated ventricular myocardium from non-failing and terminally failing human hearts
M. Näbauer, M. Böhm, L. Brown, F. Diet, M. Eichhorn, B. Kemkes, B. Pieske and E. Erdmann 600

Insulin resistance in Graves' disease: a quantitative *in-vivo* evaluation:
P. Cavallo-Perin, A. Bruno, Laura Boine, M. Cassader, G. Lenti and G. Pagano 607

Retention of haematoporphyrin in the aorta of hypertensive rats: *in-vivo* and *in-vitro* studies
G. Scannapieco, P. Pauletto, A. Pagnan, A. Mattiello, G. Jori and C. Dal Palu 614

Serum amyloid A and high density lipoproteins during the acute phase response
Linda L. Bausserman, D. N. Bernier, K. P. W. J. McAdam and P. N. Herbert 619

Arginine vasopressin dissociates the diuresis and natriuresis due to atrial natriuretic factor in man
J. McMurray, Mary L. Forsling and A. D. Struthers 627

Differences between premenopausal women and young men in the transamination pathway of methionine catabolism, and the protection against vascular disease
H. J. Blom, G. H. J. Boers, J. P. A. M. van den Elzen, J. J. M. van Roessel, J. M. F. Trijbels and A. Tangerman 633

Relationships between plasma isotope enrichments of leucine and α-ketoisocaproic acid during continuous infusion of labelled leucine
G. N. Thompson, P. J. Pacy, G. C. Ford, H. Merritt and D. Halliday 639

Differences in individual responsiveness of serum cholesterol to fat-modified diets in man
M. B. Katan, A. C. van Gastel, C. M. de Rover, M. A. J. van Montfort and J. T. Knuiman 644

Skeletal muscle and whole body protein turnover in cardiac cachexia: influence of branched-chain amino acid administration
W. L. Morrison, J. N. A. Gibson and M. J. Rennie 648

Characterization of stereomicroscopically identified preneoplastic lesions during dimethylhydrazine-induced colonic carcinogenesis:
F. Sandforth, S. Heimpel, T. Balzer, S. Gutschmidt and E. O. Riecken 655
